### Principles

(11) RMIT expects, encourages and supports employee ethical behaviour, and does not tolerate fraud or corruption.

It recognises that fraud and corruption can create reputational and financial damage to RMIT which undermines public confidence, employee and student productivity and morale.

(13) RMIT takes a risk-based approach to managing fraud and corruption through the risk management framework which requires all risks relating to fraud and corruption to be identified, assessed, responded to and monitored on an ongoing basis.

(14) The effectiveness of the mechanisms used to control fraud and corruption risks are regularly evaluated and reported to the Audit and Risk Management Committee.

### Identifying fraud and corruption risks

### **Response**

(21) RMIT ensures procedural fairness when dealing with fraudulent or corrupt conduct allegations. Refer to the Fraud and Corruption Investigation Instruction for details on the investigation process.

(22) Investigations of potential fraud and corruption are handled by suitably qualified and trained employees or contractors, and in accordance with the relevant legislation, enterprise agreement and RMIT policies and procedures.

- a. in accordance with the relevant enterprise agreement, the Managing Conduct Procedure, and any other relevant policies
